

Infrastructure Ballot Measure Task Force
Non-Motorized Transportation Subcommittee
Public Workshop March 19, 2018

Agenda

The purpose of the meeting is to review priorities for non-motorized transportation improvements as we prepare to make a final report to City Council on the work of the Non-Motorized Transportation subcommittee of the Infrastructure Ballot Measure Task Force. It will be an opportunity to provide input on the most important measures to improve conditions for walking and biking on the island.

Topics to be addressed:

- Review background and subcommittee work to date – Demi Allen
- Review relevant maps showing proposed project locations and potential connections – Chris Hammer
- Discuss Miller Road Core 40 project and design standards for Core 40 projects generally – Chris Hammer
- Discuss priority projects from project list and seek to identify 10-15 top priorities. All

Island residents interested in this subject who are unable to attend the March 19 meeting may want to complete the citizen survey regarding walking and biking created by the Bainbridge Mobility Alliance – [Click here to take the survey](#). This survey will provide useful information to the subcommittee as we seek to complete our work in April.
