MEET IN GRAVEL PARKING LOT AT ISLAND CENTER HALL

Steering Committee Member Michael Loverich led the walking tour which began at 3:03 PM. There were 11 participants, including Steering Committee Chair Maradel Gale and Jon Quitslund (Planning Commission Liaison).

ON THE ROAD

Description of the tour was advertised as follows:

This tour will be bookended by two public and historical spaces, Island Center Hall and Johnson Farm, a remnant of the original Johnson homestead. This stretch of Fletcher Bay Road linking the two is typically driven on as it is a major transportation corridor, but when walked provides pastoral and forested territorial views, it winds through farmland and weaves its way over and next to Springbrook Creek. Transportation, trails, farmland, views, public space and parks will be explored on this walk.

ADJOURN

The tour concluded at 4:17 PM.
