MEET AT INTERSECTION OF FLETCHER BAY AND SPRINGRIDGE ROADS

Steering Committee Member Michael Loverich led the walking tour which began at 3:06 PM. There were 13 participants, including Jon Quitslund (Planning Commission Liaison).

BAY, BRIDGES AND BOOTLEGGERS

Description of the tour was advertised as follows:

For a large part of the 20th century, Fletcher Bay's south side was a destination for footloose islanders and Seattleites seeking a break from the city. Arriving often by boat, guests could stay at one of the many cabins and camping sites that dotted the woods accessed by trails and bridges. Swimming and picnicking were the day activities, while at night live orchestras and bands turned the dance hall into a roaring affair. This tour will help bring to light some of these former activities and reconstruct the locations and incarnations of the various resorts whose structures no longer exist.

Fletcher Bay was viewed from many different vantage points, there was a stop under a 700-year-old Douglas Fir and the whole group traveled back in time to the 1920's.

ADJOURN

The tour concluded at 5:35 PM.
