ADJOURN

MEET AT ISLAND CENTER HALL

Steering Committee Member Michael Loverich led the walking tour which began at 3:05 PM. There were 17 public participants.

CREAM OF THE CROP

Description of the tour was advertised as follows:

Starting in the 1920's Island Center was the site of an annual island wide agricultural fair. Many of the farmers that vied for one of the 179 award categories, including 'Best Mangel,' (a giant fodder beet), lived close to the site of the fair held at Island Center Hall. Greenhouses, chicken ranches and dairies dotted the area. On this tour we'll walk to one of the remaining farms still in operation. We'll have the opportunity to explore its trails, see its livestock and learn a bit about its history.

ADJOURN

The tour concluded at 4:50 PM.
