Hi COBI

George Lobisser here. I am the person currently remodeling the old lumberyard in Lynwood Center. The building is listed on Bainbridge's Historical Register. As such, the remodel is pursuant to what the Commission has requested. The plan was to replace the rotten siding with the same material currently on the building (as reflected in the first photos below). However this week during the remodel process we have discovered the original siding that was on the building in the 1920s. I would like to side the building with this original siding vs. the siding currently on the building as this is truly historic (see photos 2 and 3). I would like to alert the Commission and am seeking their approval. I know they have a meeting today and I will call in. Can you please get this email to someone in attendance?
